Unit A Contents

Chapter 1: Aqueous Solutions 4
Try This Activity: Observing Properties 5
1.1 The Structure of Matter 6
Try This Activity: Diagrams of Atoms and the Periodic Table 10
1.2 Atomic Bonding and Properties 15
1.3 Breaking Bonds 24
Try This Activity: Water Helps Break Chemical Bonds 25
Investigation: Aqueous Solutions 32
1.4 Solutions and Concentrations 34
Investigation: Repeated Dilutions 36
1.5 Calculating Concentration 40
Investigation: Developing Technological Skills with Solutions 46
Chapter 1 Summary 53
Chapter 1 Review Questions 54

Chapter 2: The Reduction and Oxidation of Metals 58
Try This Activity: Observing the Reactivity of Zinc 59
2.1 Compounds and Chemical Change 60
Investigation: Mole Ratios in Chemical Reactions 66
Utilizing Technology: Building an Automatic Mole Calculator Spreadsheet 67
2.2 The Gain and Loss of Electrons 69
2.3 The Reactivity of Metals 76
Investigation: Ranking the Reactivity of Metals and Metal Ions 78
Investigation: Planning an Experiment Using the Activity Series 84
2.4 Using Voltaic Cells 86
Investigation: Building a Voltaic Cell 87
Investigation: Designing Voltaic Cells 93
2.5 The Electrolytic Cell 95
Try This Activity: Using Electrical Energy to Force Chemical Change 96
Investigation: Electroplating Copper 97
Chapter 2 Summary 102
Chapter 2 Review Questions 103

Chapter 3: Organic Chemistry 106
Try This Activity: Making an Organic Compound 107
3.1 Carbon Chains 108
3.2 Saturated and Unsaturated Hydrocarbons 122
Try This Activity: Building Models of Hydrocarbons 126
Investigation: Connecting Chemical and Physical Properties to Structure 130
Try This Activity: Investigating Hydrocarbon Boiling Points 131
3.3 Petroleum Is the Source 137
Try This Activity: Separating Components of a Mixture 138
Utilizing Technology: From Petroleum to Gasoline 139
Try This Activity: Get Cracking 142
3.4 Everyday Use of Hydrocarbons 144
Try This Activity: Voluntarily Reducing Hydrocarbon Consumption 148
Chapter 3 Summary 152
Chapter 3 Review Questions 153

Unit A Conclusion 156
Career Profile: Metallurgical Engineer 156
Unit A Review Questions 157

Unit B Contents

Chapter 1: Describing Motion 166

Try This Activity: Reaction Time 167

1.1 Average Speed 168

1.2 Identifying and Solving Problems with New Technologies 174

Utilizing Technology: High-Intensity Discharge (HID) Headlights 176

1.3 Average Velocity 179

1.4 Graphical Description of Uniform Motion 186

Investigation: Graphical Descriptions of Uniform Motion 188

Utilizing Technology: Writing a Script to Describe Motion 190

1.5 Graphical Description of Accelerated Motion 194

Investigation: Accelerated Motion—Speeding Up 196

Investigation: Accelerated Motion—Slowing Down 201

1.6 Calculating Displacement During Accelerated Motion 205

1.7 Determining Stopping Distance 214

Investigation: Traffic Lights—Designing a Field Study 219

1.8 A Closer Look at Braking 221

Utilizing Technology: Factors Influencing the Rate of Deceleration 223

1.9 Newton's First Law of Motion 228

Utilizing Technology: Factors Influencing the Rate of Acceleration 229

Utilizing Technology: Whiplash 232

Utilizing Technology: Forward Crash 232

Chapter 1 Summary 235

Chapter 1 Review Questions 235

Chapter 2: Collisions 240

Try This Activity: Characteristics of an Object in Motion 241

2.1 Momentum 242

2.2 Change in Momentum 246

Investigation: Changes in Momentum 248

2.3 Impulse 252

Utilizing Technology: The Evolution of Safety Technologies 255

2.4 A Closer Look at Forces and Newton's Third Law 257

Utilizing Technology: Newton's Laws and the Interaction of Objects 260

2.5 Conservation of Momentum 264

Utilizing Technology: Momentum and Collisions 265

2.6 Designing a Helmet 272

Investigation: Designing and Testing a Helmet 277

Utilizing Technology: Collecting Evidence —Bicycle Helmets and Injury Reduction 280

Chapter 2 Summary 281

Chapter 2 Review Questions 282

Unit B Conclusion 284

Career Profile: Mechanical Engineer 284

Unit B Review Questions 285

Unit C Contents

Chapter 1: The Abyss of Time 294
Try This Activity: Deep Time 295

1.1 The Long Beginning 296
Utilizing Technology: Convection 300

1.2 Early Life 302
Investigation: The Early Atmosphere 304

1.3 Strange Rocks 306
Try This Activity: Take a Wild Guess! 306
Utilizing Technology: Pulling It All Together 309
Try This Activity: Making a Fossil 309
Investigation: Matching Rock Strata from Different Locations 311
Try This Activity: Hourglass of Time 313

1.4 Getting a Handle on Time 314
Try This Activity: Imagine This: Catastrophic Events 315
Utilizing Technology: How Do Rocks Undergo Change? 317
Investigation: The Fort McMurray Unconformity 317

1.5 Pinpointing Time 319
Investigation: Constructing a Decay Curve 320

Chapter 1 Summary 325
Chapter 1 Review Questions 326

Chapter 2: A Tropical Alberta 328
Try This Activity: Interpreting Fossil Evidence 329

2.1 The Cambrian Explosion 330
Investigation: Hypothetical Interpretations of Fossil Evidence 332

2.2 A Billion-Dollar Reef 336
Investigation: Charting Patterns in Drill-Core Samples 339
Utilizing Technology: Seismograph Simulation 341

2.3 Earthquakes 343
Utilizing Technology: Subduction 345
Investigation: Modelling Seismic Waves with a Spring 346
Utilizing Technology: Earthquake Analysis 350

2.4 Raising the Rockies 352
Utilizing Technology: Mapping the Edges of Crustal Plates 353
Utilizing Technology: Plate Tectonics 355

Chapter 2 Summary 360
Chapter 2 Review Questions 361

Chapter 3: Changing Climates 366
Try This Activity: Ice Flows! 367

3.1 The Great Cooling 368
Investigation: A Record in Deep-Ocean Sediments 372

3.2 The Icy Epoch 375
Utilizing Technology: Antarctica: A Flying Tour of the Frozen Continent 377
Investigation: A Record in the Ice 378
Investigation: Fresh Water 380

3.3 Explaining and Predicting Climate Change 382
Investigation: Return to Vostok 387
Utilizing Technology: The North Atlantic Conveyor 389

Chapter 3 Summary 390
Chapter 3 Review Questions 391

Unit C Conclusion 394
Career Profile: Petroleum Engineer 394

Unit C Review Questions 395

Unit D Contents

Chapter 1: The Biosphere of Life 404
Try This Activity: Life in a Fishbowl 405
1.1 Water: An Essential Abiotic Factor 406
Investigation: The Effect of Salinity on Seed Germination 408
Investigation: Take a Stand: Using Fresh Water for Petroleum Extraction 410
1.2 Biotic Factors: The Influence of Living Things 413
Investigation: Predator-Prey Population Dynamics 419
1.3 The Web of Life 423
1.4 Conducting a Field Study 433
Investigation: A Field Study of a Local Ecosystem 434
1.5 The Recycling of Matter 440
1.6 Biodiversity and the Heritage of Our Lands 453
Utilizing Technology: Purple Loosestrife—An Invasive Species 460
Chapter 1 Summary 463
Chapter 1 Review Questions 464

Chapter 2: Changing Populations 468
Try This Activity: Coloured Toothpicks 469
2.1 Primary Succession 470
Investigation: Succession on Land 471
Utilizing Technology: Researching Primary Succession on Mars 473
Investigation: Aquatic Succession 474
2.2 Secondary Succession 476
Investigation: Observing Primary and Secondary Succession 477
Utilizing Technology: Forest Harvesting 479
2.3 Populations 482
Utilizing Technology: Graphing Populations 483
2.4 Adaptations 488
Investigation: Investigating the Fossil Record: Plotting Changes Over Time 490
2.5 Evolutionary Theory 497
Investigation: Investigating Natural Selection: A Simulation 498
Chapter 2 Summary 505
Chapter 2 Review Questions 505

Unit D Conclusion 510
Career Profile: Forestry Development Officer 510
Unit D Review Questions 511

Glossary 518
Reference 526
Lesson Answers 558
Index 566
